

New Toyota Yaris

Excellent handling, a spacious interior, low fuel consumption and class-leading Toyota Touch & Go technology are the major benefits of the sophisticated new Toyota Yaris. An agile vehicle with the ability to tackle any corner with ease, the new Yaris is built for the demands of the modern city.

As with all Toyota models, safety is paramount, with the Yaris boasting a five-star Euro NCAP rating. The Yaris includes a safety feature – Whiplash Injury-Lessening seats – specifically designed for city driving. The sophisticated ergonomic design of these seats are effective in reducing the chance of neck and shoulder injuries in the event of a rear-end shunt. Its rear-view camera, meanwhile, is an additional feature that proves welcome to those reversing into restricted parking spaces.

With a BIK of 15% the Yaris does not quite escape road tax charges like its smaller counterparts the iQ and Aygo, the modest 104g/km CO₂ emissions of the diesel model result in an annual levy of just £20. The 1.0-litre petrol and 1.33-litre automatic models are only £10 more expensive.

Discover more about the new Toyota Yaris or to arrange an on or off site test drive by calling our **John Brightmore or Nick Kennett in our Business Centre on 01274 730 730.**
