

Toyota AYGO

The manoeuvrability, comfort and visibility of the versatile new Toyota AYGO make both city and motorway driving an enjoyable experience.

The new Toyota AYGO represents excellent value for money, thanks to its economical design, minimal fuel consumption (56.5mpg in urban areas, 68.9mpg in extra-urban areas), the absence of a road tax levy due to its low CO₂ emissions (109g/km) and only 10% BIK. Its light construction means that its 67bhp engine is more than enough to guarantee great performance, while its responsive steering ensures that it can tackle even sharp bends with ease.

While compact, the car has a number of useful modern features, including power steering, a built-in TNS satellite navigation system, and USB and Bluetooth connectivity.

Discover more about the new Toyota AYGO or to arrange an on or off site test drive by calling our **John Brightmore or Nick Kennett in our Business Centre on 01274 730 730.**
